Shelter Life and Shelter Death: Cooperation for the Greater Good

Sommario/riassunto

This timely volume describes and analyzes the collaborative nursing response to a variety of historic and recent global disasters that occurred between 1908 and 2012, including Hurricane Sandy. The book is unique in its discussion of the trans-national character of disaster response regarding the mobilization of individuals across national borders and continents. It examines how these transnational partnerships developed, their implications for policy, and how we can use lessons learned to improve care in the future. The book addresses such questions as: How did local, regional, and national c
