Sommario/riassunto	The Works of Ibn Wi al-Yaqb , a three volume set, contains a fully annotated translation of the extant writings of Ab al-Abbs al-Yaqb, a Muslim imperial official and polymath of the third/ninth century, along with an introduction to these works and a biographical sketch of their author. The most important of the works are the History (Ta'rikh) and his Geography (Kitab al-buldan). It also contains a new translation of al-Yaqb's political essay (Mushakalat al-nas) and a set of fragmentary texts drawn from other Arabic medieval works. Al-Yaqb's writings are among the earliest surviving Arabic-language works of the Islamic period, and thus offer an invaluable body of evidence on patterns of early Islamic history, social and economic organization, and cultural production.
