Record Nr. UNINA9910796639803321 Frontiers in clinical drug research . Volume 4 : Anti infectives / / edited **Titolo** by Atta-ur-Rahman Pubbl/distr/stampa Sharjah, United Arab Emirates:,: Bentham Science Publishers,, 2017 2017 **ISBN** 1-68108-487-2 Descrizione fisica 1 online resource (259 pages) Collana Frontiers in Clinical Drug Research, , 2452-3208; ; Volume 4 362.29072073 Disciplina Substance abuse - Research - United States Soggetti Lingua di pubblicazione Inglese **Formato** Materiale a stampa Livello bibliografico Monografia Nota di bibliografia Includes bibliographical references and index. Sommario/riassunto Frontiers in Clinical Drug Research - Anti infectives is an eBook series that brings updated reviews to readers interested in learning about advances in the development of pharmaceutical agents for the treatment of infectious diseases. The scope of the eBook series covers a range of topics including the chemistry, pharmacology, molecular biology and biochemistry of natural and synthetic drugs employed in the treatment of infectious diseases. Reviews in this series also include research on multi drug resistance and pre-clinical / clinical findings on novel antibiotics, vaccines, antifungal agents and antitubercular agents. Frontiers in Clinical Drug Research - Anti infectives is a valuable resource for pharmaceutical scientists and postgraduate students seeking updated and critically important information for developing clinical trials and devising research plans in the field of anti infective drug discovery and epidemiology. The fourth: Volume of this series features reviews that cover a variety of topics including: -Strategies to prolong antibiotic life-Catalytic antibodies for targeting rabies and influenza viruses-Antiviral therapies for arenaviruses-The role of steroids in viral infections-Monoclonal antibody manufacturing

processes-Prevention and eradication of biofilms in medical devices
