

1. Record Nr.	UNINA9910796765103321
Titolo	The noun phrase in English : past and present // edited by Alex Ho-Cheong Leung, Wim van der Wurff
Pubbl/distr/stampa	Amsterdam ; ; Philadelphia : , : John Benjamins Publishing Company, , [2018] ©2018
Descrizione fisica	1 online resource (229 pages)
Collana	Linguistik aktuell ; ; 246
Disciplina	425.54
Soggetti	English language - Noun phrase English language - Syntax
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	Introduction to the noun phrase in English: New clues to the past and the present / Alex Ho-Cheong Leung and Wim van der Wurff -- Complex NPs with third-order entity clauses: Towards a grammatical description and semantic typology / Kristin Davidse -- Adjective stacking in Early Modern English: Some stylistic considerations / Victorina Gonzalez-Diaz -- The rich, the poor, the obvious: Arguing for an ellipsis analysis of "adjectives used as nouns" / Christine Gunther -- Variable article usage with institutional nouns: An "oddment" of English? / Marianne Hundt -- Anaphoric reference in Early Modern English: The case of said and same / Alex Ho-Cheong Leung and Wim van der Wurff -- That-complementiser omission in N + be + that-clauses: Register variation or constructional change? / Annette Mantlik and Hans-Jorg Schmid.
Sommario/riassunto	"Building on a substantial earlier literature, the chapters in this volume further advance knowledge and understanding of properties of the noun phrase in English. The empirical material for the papers includes both historical and present-day data, with the two often shedding light on each other in a process of mutual illumination. The topics addressed are: the structure of nounless NPs like the poor and the obvious; the article/zero alternation in expressions like go to (the) church; developments in the early history of adjective stacking; the semantics

of N + clause units in present-day English; the history of N + BE + clause constructions; and the decline of two anaphoric NPs in Early Modern English. The volume will appeal to scholars working in this area and will also help those interested in the general field of English grammar to keep abreast of recent methods and results in NP-related work"--
