Decent work and economic growth -- 9. Industry, innovation, and infrastructure -- 10. Reduced inequalities -- 11. Sustainable cities and communities -- 12. Responsible consumption and production -- 13. Climate action -- 14. Life below water -- 15. Life on land -- 16. Peace, justice, and strong institutions -- 17. Partnerships for the Goals -- Sustainable Development Goals and targets.
Sommario/riassunto	The Atlas of Sustainable Development Goals 2018 is a visual guide to the trends, challenges and measurement issues related to each of the 17 Sustainable Development Goals. The Atlas features maps and data visualizations, primarily drawn from World Development Indicators (WDI) - the World Bank's compilation of internationally comparable

statistics about global development and the quality of people's lives. Given the breadth and scope of the SDGs, the editors have been selective, emphasizing issues considered important by experts in the World Bank's Global Practices and Cross Cutting Solution Areas. Nevertheless, The Atlas aims to reflect the breadth of the Goals themselves and presents national and regional trends and snapshots of progress towards the UN's seventeen Sustainable Development Goals related to: poverty, hunger, health, education, gender, water, energy, jobs, infrastructure, inequalities, cities, consumption, climate, oceans, the environment, peace, institutions, and partnerships.
