Conclusions -- Appendix A: Tables -- Appendix B: Neo-Assyrian administrative texts dealing with textiles -- Glossary -- Bibliography -- Index of selected textile terms -- Index of selected Akkadian words related to textiles
Sommario/riassunto	The book analyses the Assyrian textile terminology of the first millennium BC. Terms for raw materials, textile procedures, and textile end products consumed in first-millennium BC Assyria are classified according to their meaning and compared with other dialects of Akkadian as well as other Semitic languages. The study also discusses the management of textile production and consumption in Assyria by the state administration.
