Sommario/riassunto	The role of the state in modern capitalism has gone beyond fixing

market failures. Those regions and countries that have succeeded in achieving 'smart' innovation-led growth have benefited from long-term visionary 'mission-oriented' policies - from putting a man on the moon to tackling societal challenges such as climate change and the wellbeing of an ageing population. This book collects the experience of different types of mission-oriented public institutions around the world, together with thought-provoking chapters from leading economists. As the global debate on deficits and debt levels c
