

1. Record Nr.	UNINA9910796908103321
Titolo	Pain medicine : an interdisciplinary case-based approach // edited by Salim M. Hayek, MD [and three others] ; foreword by James P. Rathmell
Pubbl/distr/stampa	New York, New York : , : Oxford University Press, , 2015 ©2015
ISBN	0-19-939082-7 0-19-939081-9
Descrizione fisica	1 online resource (457 p.)
Disciplina	616.0472
Soggetti	Pain - Treatment Chronic pain - Treatment Pain Management Chronic Pain - therapy
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Cover; Pain Medicine; Copyright; Dedication; Contents; Foreword by James P. Rathmell; Preface; Contributors; Section I Neuropathic Pain; 1 Small Fiber Neuropathy; 2 Postherpetic Neuralgia; 3 Trigeminal Neuralgia and Other Facial Pain Conditions; 4 Carpal Tunnel Syndrome; Section II Muscle, Joint, and Tendon Pain; 5 Myofascial Pain Syndrome; 6 Pain of Rheumatological Disease; 7 Tendinopathies; Section III Spine and Related Disorders; 8 Discogenic Pain; 9 Lumbar Facet Pain; 10 Sacroiliac Joint Pain; 11 Lumbar Spinal Stenosis; 12 Lumbar Disc Displacement; 13 Postlaminectomy Syndrome 14 Piriformis Syndrome 15 Whiplash Associated Disorder and Cervical Facet Pain; 16 Cervical Radicular Pain; 17 Thoracic Back Pain; Section IV Visceral Pain; 18 Pain from Chronic Pancreatitis; 19 Chronic Pelvic Pain; 20 Chronic Refractory Angina; 21 Postsurgical Thoracic Pain; 22 Post-Herniorrhaphy Pain; 23 Palliative Cancer Pain; 24 Headache; 25 Complex Regional Pain Syndrome (CRPS); 26 Fibromyalgia; Index
Sommario/riassunto	Pain Medicine approaches the management of common chronic pain conditions using a unique interdisciplinary approach focusing on

multiple facets of patients' clinical presentations. The comprehensive discussions in each chapter are centered on a vignette that mimics a fairly typical case presentation. In addition to detailed classical descriptions of the epidemiology, pathophysiology, prognosis, and confounding psychosocial factors of each disease entity, the text provides various interdisciplinary management approaches. The case-based approach illustrates key clinical points and demonstrates h
