

1. Record Nr.	UNINA9910797030903321
Titolo	Animal welfare in animal agriculture : husbandry, stewardship, and sustainability in animal production // edited by Wilson G. Pond, Fuller W. Bazer, and Bernard E. Rollin
Pubbl/distr/stampa	Boca Raton, Fla. : , : CRC Press, , 2011
ISBN	0-429-11265-3 1-4398-9785-9
Descrizione fisica	1 online resource (313 p.)
Altri autori (Persone)	BazerFuller Warren <1938-> PondWilson G. <1930-> RollinBernard E
Disciplina	179.3
Soggetti	Animal welfare Livestock - Social aspects Animal industry - Moral and ethical aspects
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters.
Nota di contenuto	Chapter 6: Contemporary Animal Agriculture: Rural Community Concerns in the United StatesChapter 7: Implementing Effective Practices and Programs to Assess Animal Welfare; Chapter 8: Animal Welfare: Synthesizing Contemporary Animal Agriculture/Engineering and Animal Comfort and Social Responsibility; Chapter 9: Symbiosis of Plants, Animals, and Microbes; Chapter 10: Food Safety Issues in Animal Source Foods Related to Animal Health and Welfare; Chapter 11: Animal Welfare in the Context of Ecological Sustainability Chapter 12: Competition between Animals and Humans for Cultivated Crops: Livestock Production and our Food SupplyChapter 13: Crop Residues and Other Feed Resources: Inedible for Humans but Valuable for Animals; Chapter 14: Welfare, Health, and Biological Efficiency of Animals through Genetics and Biotechnology; Back Cover
Sommario/riassunto	""This text provides the reader with multiple views on animal welfare and proves to be a fascinating read. There are a variety of viewpoints included in the text and thus avoids the pitfall of providing only one or two opinions on, what has proved to be, a controversial subject. ...

While it should be considered required reading for students in the agricultural field, it will also prove to be thought-provoking to anyone interested in the subject of animal welfare and its impact on society.""- Brandy Tabor, CVT, VTS (ECC), The VIN Book Reviews, VSPN.org, January 2013"Implementation of welfare in p

Nota di contenuto	pt. 1. The health of incarcerated populations -- pt. 2. Health consequences of crime and risk behaviors -- pt. 3. Crime, space and health -- pt. 4. Public health interventions with criminal justice populations.
Sommario/riassunto	Carefully selected to reflect the latest research at the interface between public health and criminal justice in the US, these contributions each focus on an aspect of the relationship. How, for example, might a person's criminal activity adversely affect their health or their risk of

exposure to HIV infection? The issues addressed in this volume are at the heart of policy in both public health and criminal justice. The authors track a four-fold connection between the two fields, exploring the mental and physical health of incarcerated populations; the health consequences of crime, substance abuse, violence and risky sexual behaviors; the extent to which high crime rates are linked to poor health outcomes in the same neighborhood; and the results of public health interventions among traditional criminal justice populations. As well as exploring these urgent issues, this anthology features a wealth of remarkable interdisciplinary contributions that see public health researchers focusing on crime, while criminologists attend to public health issues. The papers provide empirical data tracking, for example, the repercussions on public health of a fear of crime among residents of high-crime neighborhoods, and the correlations between HIV status and outcomes, and an individual's history of criminal activity. Providing social scientists and policy makers with vital pointers on how the criminal justice and public health sectors might work together on the problems common to both, this collection breaks new ground by combining the varying perspectives of a number of key disciplines. .
