

1. Record Nr.	UNINA9910797159703321
Titolo	Developing a framework for measuring community resilience : summary of a workshop / / Dominic A. Brose, rapporteur
Pubbl/distr/stampa	Washington, District of Columbia : , : National Academies Press, , 2015 ©2015
ISBN	0-309-34741-6 0-309-34739-4
Descrizione fisica	1 online resource (49 pages) : color illustrations
Disciplina	363.347
Soggetti	Emergency management - United States United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Developing Resilience Indicators and Measures -- Implementing Resilience Indicators and Measures at the Community Level -- Developing a Decision-Making Framework -- Appendix A: Breakout Group Tables -- Appendix B: Workshop Agenda -- Appendix C: Steering Committee, Speaker, and Moderator Biographies
Sommario/riassunto	"The 2012 National Research Council report Disaster Resilience: A National Imperative highlighted the challenges of increasing national resilience in the United States. One finding of the report was that "without numerical means of assessing resilience, it would be impossible to identify the priority needs for improvement, to monitor changes, to show that resilience had improved, or to compare the benefits of increasing resilience with the associated costs." Although measuring resilience is a challenge, metrics and indicators to evaluate progress, and the data necessary to establish the metric, are critical for helping communities to clarify and formalize what the concept of resilience means for them, and to support efforts to develop and prioritize resilience investments. One of the recommendations from the 2012 report stated that government entities at federal, state, and local levels and professional organizations should partner to help develop a framework for communities to adapt to their circumstances and begin

to track their progress toward increasing resilience. To build upon this recommendation and begin to help communities formulate such a framework, the Resilient America Roundtable of the National Academies convened the workshop *Measures of Community Resilience: From Lessons Learned to Lessons Applied* on September 5, 2014 in Washington, D.C. The workshop's overarching objective was to begin to develop a framework of measures and indicators that could support community efforts to increase their resilience. The framework will be further developed through feedback and testing in pilot and other partner communities that are working with the Resilient America Roundtable. This report is a summary of the one-day workshop, which consisted of a keynote address and two panel sessions in the morning and afternoon breakout sessions that began the discussion on how to develop a framework of resilience measures."-- Publisher's description
