Sommario/riassunto

Seeking asylum in the European Union (EU) today is as complex as the EU asylum system itself: the different forms of protection that exist do not remain easily accessible and are sometimes not tailored to the specific protection needs of asylum-seekers. The aim of this volume is to provide critical analyses of selected problems that scholars and policy-makers will have to address in the 'second phase' of the Common European Asylum System. A broad range of issues are examined relating to access to and qualification for international protection and the further problems raised by this amended set of asylum instruments which continue to impede asylum-seekers from benefiting from effective protection in EU Member States. With a foreword by Professor H el ene Lambert.
