Lessons and conclusions; 5.1. Financial strategy; 5.2. An integrated approach; References Sommario/riassunto This publication, authored by S. Premchander, V. Prameela and M. Chidambaranathan of the Indian NGO SAMPARK, documents the learning processes of the NGOs and microfinance organizations that experimented with different approaches to microfinance and bonded labour. It highlights the importance of adopting a holistic and

integrated approach, including social, economic, political and judicial

interventions at individual, household, community and higher levels. The publication seeks to stimulate broader debate and experimentation on how microfinance can most effectively contribute to ending bonded
