Sommario/riassunto	This eBook includes papers discussing facets of and ideas behind the recently-launched master degree course in social foresight at The University of Trento, Italy. The programme includes a mix of theoretical and empirical activities - integrating academic and non-academic skills. The master course is aimed primarily at professionals and officials, both public and private, wishing to acquire new tools to support strategic decisions. Participants in the master course develop the ability to understand the systemic complexity of contemporary society and acquire a variety of tools - formal and info
