Sommario/riassunto	This is a case study of one congregation within the Unity Fellowship Church Movement that relies on therapeutic religion, a form of religion

that strives to equip individuals with psychological capital, by enabling self-expressions and affirmations of social differences. The therapeutic ethic that characterizes this congregation has enabled some freedoms that are otherwise disallowed in traditional congregations. These new freedoms inadvertently have led to certain excesses, including overtly sexual language and behaviors. But this is not to say that the congregation disregards conventional no
