| Sommario/riassunto | The Aramaic texts among the Dead Sea Scrolls are among the most important discoveries for the history of Aramaic and for the background of early Judaism and Christianity. They constitute a "missing link" between Biblical Aramaic and the later Aramaic of the targums and midrashic literature. Among them are the oldest texts we have of the Book of Enoch and Tobit, as well as the earliest Aramaic translation of a portion of Scripture, the Targum of Job. Other previously unknown texts such as the Genesis Apocryphon and the Aramaic Levi Document have opened up many new avenues of research on the literature of early Judaism, and the dialect itself is chronologically the one nearest to the origins of Christianity. Now, for |

the first time, there is a comprehensive dictionary of all the Aramaic texts from the 11 Qumran caves, from a noted specialist in Qumran Aramaic. It is the first dictionary in any language devoted solely to this important Aramaic corpus and contains a wealth of detail, including definitions, extensive citations of the sources, discussions of difficult passages, revised readings, and a bibliography. It will be an indispensable resource to anyone interested in the Dead Sea Scrolls, the literature of early Judaism and Christianity, and the Aramaic language.
