Sommario/riassunto

This unique collection of essays by leading international scholars gives a profound introduction into the great diversity and richness of facets forming the study of one of earth's most exciting areas, the Iranian and Caucasian lands. Each of the 37 contributions sheds light on a very special topic, the range of which comprises historical, cultural, ethnographical, religious, political and last but not least literary and linguistic issues, beginning from the late antiquity up to current times. Especially during the last decennia these two regions gained greater interest worldwide due to several developments in politics and culture. This fact grants the book, intended as a festschrift for Prof. Garnik Asatrian, a special relevance. Contributors: Victoria Arakelova; Marco Bais; Uwe Bläsing; Vahe S. Boyajian; Claudia A.
