Note generali	"Emerald books"--Cover.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Beyond three faces : toward an integrated social psychology of inequality / Jane D. McLeod, Tim Hallett, Kathryn J. Lively -- Sequence-network analysis : a new framework for studying action in groups / Benjamin Cornwell, Kate Watkins -- Expectation states, social influence, and affect control : opinion and sentiment change through social interaction / Kimberly B. Rogers -- How does status affect power use? New perspectives from social psychology / Ko Kuwabara -- Recruiting source effects : a social psychological analysis / Richard L. Moreland -- On identifying human capital : flawed knowledge leads to faulty judgments of expertise by individuals and groups / David Dunning -- Constructive leadership across groups : how leaders can combat prejudice and conflict between subgroups / Michael A. Hogg -- Collaboration among highly autonomous professionals : costs, benefits, and future research directions / Heidi K. Gardner, Melissa Valentine.
Sommario/riassunto	Advances in group processes publishes theoretical analyses, reviews, and theory based empirical chapters on group phenomena. The series

adopts a broad conception of "group processes." This includes work on groups ranging from the very small to the very large, and on classic and contemporary topics such as status, power, exchange, justice, influence, decision-making, intergroup relations and social networks. Previous contributors have included scholars from diverse fields including sociology, psychology, political science, philosophy, computer science, mathematics and organizational behavior.

Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Energies SI Book "Selected Papers from the ICEUBI2019 - International Congress on Engineering - Engineering for Evolution", groups six papers into fundamental engineering areas: Aeronautics and Astronautics, and Electrotechnical and Mechanical Engineering. ICEUBI-International Congress on Engineering is organized every two years by the Engineering Faculty of Beira Interior University, Portugal, promoting engineering in society through contact among researchers and practitioners from different fields of engineering, and thus encouraging the dissemination of engineering research, innovation, and development. All selected papers are interrelated with energy topics (fundamentals, sources, exploration, conversion, and policies), and provide relevant data for academics, research-focused practitioners, and policy makers.
