"10 The Judicialization of Development Policy"

Sommario/riassunto

Deliberation is the process by which a group of people, each with equal voice, can - via a process of discussion and debate - reach an agreement. Deliberation and Development attempts to do two things. First, it rethinks the role of deliberation in development and shows that it has potential well beyond a narrow focus on participatory projects. Deliberation, if properly instituted, has the potential to have a transformative effect on many if not all aspects of development, and especially in addressing problems of collective action, coordination, and entrenched inequality. This has broad implic
