Ozan Özavc -- Index / H. Ozan Özavc.
Sommario/riassunto	Few studies tracing the history of liberalism have taken into account that its reception in non-Western or westernising countries, in the form of the denial or acceptance of its core values and institutions, is an important aspect of the liberal tradition. In Intellectual Origins of the Republic: Ahmet Aaolu and the Genealogy of Liberalism in Turkey , zavc investigates the histories of liberalism and nationalism in the late Russian and Ottoman Empires and early Republican Turkey through the prism of the life, ideas and times of the revolutionary writer Ahmet Aaolu. This is the first in-depth study in the English language that places under scrutiny the Turkish idea of liberty and its endless yet destructive flirt with nationalism.
