Nota di contenuto	A people's story -- The text is the teacher -- Mnemonics, methods, and memory: organizing and encoding the American story -- An American character -- Genesis: emergence and migrations -- Apologetics: why we are who we are -- Slaying the monster -- The narrative divides -- The narrative re-joined -- Conclusion: who will write this story?
Sommario/riassunto	This book offers a fresh, multidisciplinary analysis of American history textbooks published in the first half of the nineteenth century, focusing on the emergence of an American "origins" narrative prevalent in these works as well as the methods employed to convey this tale to readers. The themes addressed in this work are timely in light of current controversies over American history curriculum, the role of textbooks, and the idea of a common American narrative.
