Sommario/riassunto

According to Pinkerton-the leading provider of risk management services in the world-workplace violence is second only to cybersecurity as the top threat faced by organizations today. Incidents involving active shooters in the workplace are on the rise and becoming more violent and deadly. Active Shooter provides the tools necessary to identify potential violent individuals, along with the options and responses needed to save lives, reduce corporate liability, and recover from an active shooter event should it happen. Active Shooter begins with a brief history of active shooters and how t
