## Sommario/riassunto

Environmental education expert David Sobel joins with a variety of colleagues to share their experiences and steps for creating a successful forest kindergarten program. *Nature Preschools and Forest Kindertgartens* walks you through the European roots of the concept to the recent resurgence of these kinds of programs in North America. Going well beyond a history lesson, these experts provide the framework to understand the concepts and build a learning community that stimulates curiosity and inquisitiveness in a natural environment. This helpful guide provides the curriculum, ideas, and guidance needed to foster special gifts in children. It also gives you the nuts and bolts of running a successful nature preschool business, such as potential obstacles, staff and curriculum design, best practices for success, site and facility management, and business planning. *Nature Preschools and Forest Kindertgartens* provides the mentorship and guidance to become a leader in nature-based education.
