Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Public health and the making of modern Yucatan -- Institutionalizing biomedicine -- Medical communities -- Disease and public health campaigns -- Public health and the revolutionary state -- The biomedicalization of Yucatan.
Sommario/riassunto	Medicine on the Periphery traces the development of Yucatan's medical institutions, public health programs, healers, and changing disease environment from the 1870s through 1960. The biomedicalization of Yucatan's public health system is analyzed within the Atlantic medical community and the emerging revolutionary state of central Mexico.
