Collana	6
Disciplina	618.928
Soggetti	Pediatric neurology Neurologic examination
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	A practical handbook covering the examination of minor neurological dysfunction. The approach is a detailed and extensive neurological examination with the aim of detecting a possible neurobiological basis for learning, behavioural and motor coordination problems in a child and thus informing decision-making and management.
