Sommario/riassunto	A significant contribution to the emerging literature on decolonial studies, this concise and forcefully argued volume lays out a groundbreaking interpretation of the "Mandela phenomenon." Contrary to a neoliberal social model that privileges adversarial criminal justice and a rationalistic approach to war making, Sabelo J. Ndlovu-Gatsheni identifies transformative political justice and a reimagined social order as key features of Nelson Mandela's legacy. Mandela is understood here as an exemplar of decolonial humanism, one who embodied the idea of survivor's justice and held up reconciliation and racial harmony as essential for transcending colonial modes of thought.

Sommario/riassunto	Les principes sur lesquels reposent les politiques de l'eau ne sont pas mis en application ou sont fondamentalement inadéquats par rapport aux problèmes que doivent résoudre les gestionnaires. Cet ouvrage a pour objectif de revenir sur chacun de ces principes, en les définissant et en étudiant leur déclinaison à plusieurs échelles en différentes régions du monde. Il s'agit de porter le débat, non pas sur le bien fondé des axes des politiques de l'eau, mais précisément sur l'intérêt et les limites des principes qui les gouvernent.
