

1. Record Nr.	UNINA9910798183303321
Autore	Bryant Richard A. <1960->
Titolo	Acute stress disorder : what it is and how to treat it / / Richard A. Bryant
Pubbl/distr/stampa	New York, New York ; ; London, [England] : , : The Guilford Press, , 2016 ©2016
ISBN	1-4625-2511-3 1-4625-2601-2 1-4625-2514-8
Descrizione fisica	1 online resource (x, 326 pages) : illustrations
Classificazione	PSY022040MED105000SOC025000
Disciplina	616.85/21
Soggetti	Post-traumatic stress disorder Psychic trauma
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. I THEORETICAL AND EMPIRICAL ISSUES -- 1.Lessons from the Past -- 2.Diagnosis of Acute Stress Disorder -- 3.Acute Stress Disorder in DSM-5 -- 4.Do Initial Reactions Predict Long-Term Reactions? -- 5. Biology of Acute Stress Reactions -- 6.Cognitive Features of Acute Stress Reactions -- pt. II ASSESSMENT -- 7.Assessing Acute Stress Reactions -- pt. III TREATMENT -- 8.What about Psychological Debriefing? -- 9.An Overview of Treatment for Acute Stress Disorder -- 10.How to Treat Acute Stress Disorder -- 11.Challenges to Treating Acute Stress Disorder -- pt. IV SPECIAL CONSIDERATIONS -- 12.Mild Traumatic Brain Injury -- 13.Working with Military Personnel and First Responders -- 14.Acute Stress Disorder in Children -- 15.Acute Stress Disorder and the Law -- 16.Concluding Comments.
Sommario/riassunto	Drawing on extensive research and clinical experience, leading authority Richard A. Bryant explores what works--and what doesn't work--in managing acute traumatic stress. He reviews the current state of the science on acute stress disorder (ASD) and presents diagnostic guidelines based on DSM-5. In a straightforward, highly readable style, Bryant shares rich insights into how to provide effective, compassionate

care to specific populations, including those with mild traumatic brain injury, military personnel and first responders, and children. Evidence-based intervention procedures are described. Reproducible assessment tools and handouts can be downloaded and printed in a convenient 8 1/2" x 11" size.
