Sommario/riassunto	This book covers the fog of reform and getting back to the ideal of a place called school. The sections describe a new metaphor and approach to change and examine the forces and ideals that can bring about the schools children need. Principles and values transform organizations, not mandates and fear. Recipes for making schools into caring places for children do not exist. Great schools must be created one-by-one. Numbers don't create change; people and passion do.
