

1. Record Nr.	UNINA9910798294103321
Autore	Muller Simone M.
Titolo	Wiring the world : the social and cultural creation of global telegraph networks // Simone M. Muller
Pubbl/distr/stampa	New York : , : Columbia University Press , , 2016 ©2016
ISBN	0-231-54026-4
Descrizione fisica	1 online resource (384 pages)
Collana	Columbia Studies in International and Global History
Classificazione	NW 3470
Disciplina	384.1
Soggetti	Telegraph - History Transatlantic cables Telegraph - Economic aspects
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Frontmatter -- CONTENTS -- ACKNOWLEDGMENTS -- Introduction: The Class of 1866 -- 1. Networking the Atlantic -- 2. The Battle for Cable Supremacy -- 3. The Imagined Globe -- 4. Weltcommunication -- 5. The Professionalization of the Telegraph Engineer -- 6. Cable Diplomacy and Imperial Control -- 7. The Wiring of the World -- Appendix: Actors of Globalization -- Notes -- Bibliography -- Index
Sommario/riassunto	The successful laying of a transatlantic cable in 1866 remade world communications. A message could travel across the ocean in minutes, shrinking the space between continents, cultures, and nations. An eclectic group of engineers, entrepreneurs, politicians, and media visionaries then developed this technology into a telecommunications system that spread a particular vision of civilization-but not everyone wanted to wire the world the same way. Wiring the World is a cultural and social history that explores how the large Anglo-American cable companies won out over alternative visions. Bitter rivalries emerged over telegram prices, visions for world peace, scientific innovation, and the role of the nation-state. Such struggles determined the growth of cable technology, which in turn influenced world history. Filled with fascinating characters and new insights into pivotal events, Wiring the World traces globalization's diverse paths and close ties to business

and politics.
