| Sommario/riassunto | There has been widespread neglect by scholars of deuterocanonical books, especially those (e.g., Baruch) that are thought to lack originality. This book seeks to address this lacuna by investigating some of the major interpretive issues in Baruchan scholarship. The volume comprises a collection of essays from an international team of scholars who specialise in Second Temple Judaism and Old Testament pseudepigrapha. Topics covered include: historical issues (the person |

of Baruch), literary structure, intertextual relationships between Baruch and the OT (Jeremiah, Isaiah), reception history (Christian and Jewish), and modern translation challenges. This is the first volume of essays that exclusively focus on Baruch and one that seeks to provide a foundation for future investigations.
