ISBN	0-262-33219-1 0-262-33218-3
Descrizione fisica	1 online resource (269 p.)
Classificazione	006.7768 CON
Disciplina	794.80952
Soggetti	Video games - Japan Video games - Social aspects - Japan Video games industry - Japan
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	Contents; Acknowledgments; Introduction; 1 Playing with Cosmopolitanism; 2 Unintended Travel; 3 Playing Japan's Games; 4 Much Ado about JRPGs; 5 Localization; 6 The Japanese Console Game Industry; 7 A Game's Building Blocks; 8 Conclusions; Notes; Index
Sommario/riassunto	"In the early days of arcades and Nintendo, many players didn't recognize Japanese games as coming from Japan; they were simply new and interesting games to play. But since then, fans, media, and the games industry have thought further about the "Japaneseness" of particular games. Game developers try to decide whether a game's Japaneseness is a selling point or stumbling block; critics try to determine what elements in a game express its Japaneseness--cultural motifs or technical markers. Games were "localized," subjected to sociocultural and technical tinkering. In this book, Mia Consalvo looks at what happens when Japanese games travel outside Japan, and how they are played, thought about, and transformed by individuals, companies, and groups in the West. Consalvo begins with players, first exploring North American players' interest in Japanese games (and Japanese culture in general) and then investigating players' DIY localization of games, in the form of ROM hacking and fan translating.

She analyzes several Japanese games released in North America and looks in detail at the Japanese game company Square Enix. She examines indie and corporate localization work, and the rise of the professional culture broker. Finally, she compares different approaches to Japaneseness in games sold in the West and considers how Japanese games have influenced Western games developers. Her account reveals surprising cross-cultural interactions between Japanese games and Western game developers and players, between Japaneseness and the market."--Book jacket.
