

1. Record Nr.	UNINA9910798538603321
Autore	Willis Jon (College teacher)
Titolo	All these worlds are yours : the scientific search for alien life / / Jon Willis
Pubbl/distr/stampa	New Haven, Connecticut : , : Yale University Press, , [2016] ©2016
ISBN	0-300-22475-3
Descrizione fisica	1 online resource (232 p.)
Disciplina	576.839
Soggetti	Exobiology Life on other planets
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographic references (page [189]-205) and index.
Nota di contenuto	Front matter -- CONTENTS -- Preface -- Acknowledgments -- One. Alien Extravaganza -- Two. A Universe Fit for Life? -- Three. What on Earth Is Life? -- Four. A Biological Tour of Our Solar System -- Five. Mars: The Riddle in the Sands -- Six. Europa and Enceladus: Life Aquatic? -- Seven. Titan: Nature's Petrochemical Plant -- Eight. Exoplanets: Worlds without End -- Nine. The Search for Extraterrestrial Intelligence -- Ten. The Meaning of (Alien) Life? -- Notes -- References: Billions and Billions of Books -- Index
Sommario/riassunto	Where would you look for alien life? An astronomer and science popularizer explains the basics of astrobiology to outline five plausible scenarios for finding extraterrestrials. Long before space travel was possible, the idea of life beyond Earth transfixed humans. In this fascinating book, astronomer Jon Willis explores the science of astrobiology and the possibility of locating other life in our own galaxy. Describing the most recent discoveries by space exploration missions, including the Kepler space telescope, the Mars Curiosity rover, and the New Horizons probe, Willis asks readers to imagine-and choose among-five scenarios for finding life. He encourages us to wonder whether life might exist within Mars's subsoil ice. He reveals the vital possibilities on the water-ice moons Europa and Enceladus. He views Saturn's moon Titan through the lens of our own planet's ancient past.

And, he even looks beyond our solar system, investigating the top candidates for a "second Earth" in a myriad of exoplanets and imagining the case of a radio signal arriving from deep space. Covering the most up-to-date research, this accessibly written book provides readers with the basic knowledge necessary to decide where they would look for alien life.

Sommario/riassunto "Dell takes you on a fun, wild ride!" --B.J. DANIELS, New York Times Bestselling AuthorIt took 32 seconds to end his career,But it only took 1 to change his life.Thirty-two seconds. That's how long it took for Delon Sanchez's life to end. One minute he was the best bronc rider in the Panhandle and the next he was nothing. Knee shattered, future in question, all he can do is pull together the pieces...and wonder what cruel trick of fate has thrown him into the path of his ex, the oh-so-

perfect Tori Patterson. Tori's finally come home, intent on escaping the public eye. It's just her luck that Delon limps into her physical therapy office, desperate for help. All hard-packed muscle and dark-eyed temptation, he's never been anything but a bad idea. And yet, seeing him again, Tori can't remember what made her choose foolish pride over love...or why, with this second, final chance to right old wrongs, the smartest choice would be to run from this gorgeous rodeo boy as fast as her boots can take her. *Texas Rodeo Series*: *Reckless in Texas* (Book 1) *Tangled in Texas* (Book 2) *Tougher in Texas* (Book 3) *Fearless in Texas* (Book 4) *Mistletoe in Texas* (Book 5) *What People Are Saying* about the Texas Rodeo series: "Look out, world! There's a new cowboy in town." --CAROLYN BROWN, *New York Times* Bestselling Author "An extraordinarily gifted writer." --KAREN TEMPLETON, author of *Wed in the West* series "Real Ranches. Real Rodeo. Real Romance." --LAURA DRAKE, author of *Sweet on a Cowboy* series "A sexy, engaging romance set in the captivating world of rodeo." --Kirkus "Illuminating...a standout in western romance." --Publishers Weekly
