| Nota di contenuto | Title page; Contents; List of figures and tables; C H A P T E R 1 What is an ontology?; Introduction; The data deluge and information overload; Defining terms; Knowledge organization systems and ontologies; Ontologies, metadata and linked data; What can an ontology do?; Ontologies and information professionals; Alternatives to ontologies; |

The aims of this book; The structure of this book; C H A P T E R 2
Ontologies and the semantic web; Introduction; The semantic web and
linked data; Resource Description Framework (RDF); Classes, subclasses
and properties; The semantic web stack; Embedded RDF.
Alternative semantic visionsLibraries and the semantic web; Other
cultural heritage institutions and the semantic web; Other
organizations and the semantic web; Conclusion; C H A P T E R 3
Existing ontologies; Introduction; Ontology documentation; Ontologies
for representing ontologies; Ontologies for libraries; Upper ontologies;
Cultural heritage data models; Ontologies for the web; Conclusion; C H
A P T E R 4 Adopting ontologies; Introduction; Reusing ontologies:
application profiles and data models; Identifying ontologies; The ideal
ontology discovery tool; Selection criteria; Conclusion.
C H A P T E R 5 Building ontologiesIntroduction; Approaches to building
an ontology; The twelve steps; Ontology development example:
Bibliometric Metrics Ontology element set; Conclusion; C H A P T E R 6
Interrogating ontologies; Introduction; Interrogating ontologies for
reuse; Interrogating a knowledge base; Understanding ontology use;
Conclusion; C H A P T E R 7 The future of ontologies and the
information professional; Introduction; The future of ontologies for
knowledge discovery; The future role of library and information
professionals; The practical development of ontologies.

Sommario/riassunto

Practical Ontologies for Information Professionals provides an
accessible introduction and exploration of ontologies and demonstrates
their value to information professionals. More data and information is
being created than ever before. Ontologies, formal representations of
knowledge with rich semantic relationships, have become increasingly
important in the context of today's information overload and data
deluge. The publishing and sharing of explicit explanations for a wide
variety of conceptualizations, in a machine readable format, has the
power to both improve information retrieval and discover new
knowledge. Information professionals are key contributors to the
development of new, and increasingly useful, ontologies.

3. Record Nr.	UNISA996211409903316
Titolo	Journal of neurophysiology / / American Physiological Society
Pubbl/distr/stampa	Bethesda, MD, : American Physiological Society
ISSN	1522-1598
Descrizione fisica	1 online resource
Disciplina	612
Soggetti	Neurophysiology Neurology Physiology Neurophysiologie Zeitschrift Neurofysiologie Periodical Fulltext Periodicals. Internet Resources.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Periodico
Note generali	Refereed/Peer-reviewed Published with the assistance of HighWire Press.
