Sommario/riassunto	Religion has always been an object of philosophical analysis, as well as a platform for political practice. One cannot imagine a form of philosophical thinking without its relation to a religion, whether it

negates or affirms the latter. In different philosophical orientations, religion also serves as a condition for philosophy. *Althusser and Theology* intends not so much to fill a gap in Althusser scholarship as to make an important contribution to the contemporary radical left movement. In this regard, *Althusser and Theology* is of significant importance in the current debates on the Left concerning its relation to theology. It will also contribute to the ongoing debate on Althusser, as well as opening up a new perspective on his philosophical project. Contributors are: Roland Boer, Stanislas Breton, Isa Blumi, Geoff Pfeifer, Agon Hamza, Warren Montag, Vittorio Morfino, Knox Peden, Panagiotis Sotiris, Ted Stolze, Jana Tsoneva, and Gabriel Tupinambá.
