

1. Record Nr.	UNINA9910798701003321
Autore	Shapiro Lawrence A.
Titolo	The miracle myth : why belief in the Resurrection and the supernatural Is unjustified / / Larry Shapiro
Pubbl/distr/stampa	New York : , : Columbia University Press, , 2016 ©2016
ISBN	0-231-54214-3
Descrizione fisica	1 online resource (189 pages) : illustrations, tables
Disciplina	202.117
Soggetti	Supernatural Miracles Belief and doubt Credulity Psychology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Frontmatter -- Contents -- Preface -- Acknowledgments -- 1. Justified and Unjustified Belief -- 2. Miracles -- 3. Justifying Belief in Supernatural Causes -- 4. Justifying Belief in Improbable Events -- 5. Evidence for Miracles -- 6. Jesus's Resurrection -- 7. Should We Care That Beliefs in Miracles Are Unjustified? -- Appendix 1. What is Supernatural ? -- Appendix 2. Supernatural Causes -- Notes -- Further Reading -- Index
Sommario/riassunto	There are many who believe Moses parted the Red Sea and Jesus came back from the dead. Others are certain that exorcisms occur, ghosts haunt attics, and the blessed can cure the terminally ill. Though miracles are immensely improbable, people have embraced them for millennia, seeing in them proof of a supernatural world that resists scientific explanation. Helping us to think more critically about our belief in the improbable, The Miracle Myth casts a skeptical eye on attempts to justify belief in the supernatural, laying bare the fallacies that such attempts commit. Through arguments and accessible analysis, Larry Shapiro sharpens our critical faculties so we become less susceptible to tales of myths and miracles and learn how, ultimately, to

evaluate claims regarding vastly improbable events on our own. Shapiro acknowledges that belief in miracles could be harmless, but cautions against allowing such beliefs to guide how we live our lives. His investigation reminds us of the importance of evidence and rational thinking as we explore the unknown.
