Murty -- Putting Hurricane Sandy in context: comparing Sandy, Katrina, and Gustav / Kelly Frailing and Dee Wood Harper, Jr.
Sommario/riassunto	A multi-faceted examination into one of the most recent natural disasters in the United States. Scholars from multiple disciplines address a wide range of important aspects of this event, including

unique meteorological and social impacts of Sandy, Sandy's intersection with vulnerable social groups in society, and society institutions' adaptations to the disaster. Also, different theoretical models of disasters are explored and applied to better understand and prepare for similar events in the future. -- cover
