

1. Record Nr.	UNINA9910799231003321
Titolo	Bridging Peace and Sustainability Amidst Global Transformations // edited by Ayyoob Sharifi, Dahlia Simangan, Shinji Kaneko
Pubbl/distr/stampa	Singapore : , : Springer Nature Singapore : , : Imprint : Springer, , 2023
ISBN	981-9975-72-7
Edizione	[1st ed. 2023.]
Descrizione fisica	1 online resource (XII, 267 p. 54 illus., 42 illus. in color.)
Collana	World Sustainability Series, , 2199-7381
Disciplina	304.2
Soggetti	Sustainability Political planning Peace Political science Environmental sciences - Social aspects Public Policy Peace and Conflict Studies Governance and Government Environmental Social Sciences Politics and International Studies
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Bridging Peace and Sustainability amidst Global Transformations -- Toward Synergies between Peace and Sustainability: Using Institutional Research Data to Explore the Diversity of Participants in SDG-related Research -- Interactions between SDG 14 (life below water) and SDG 16 (peace, justice, and strong institutions): A review of co-benefits, synergies, conflicts, and trade-offs -- Ecological Education in Islamic Religious Learning Based on Creative Imagination -- Sustainable peacebuilding through a dignity lens: A case study of caste-based discrimination in Nepal -- Bangsamoro Youth in Peacebuilding: Contributions, Opportunities and Challenges.
Sommario/riassunto	This book is the sequel to a well-received book titled 'Integrated Approaches to Peace and Sustainability' that aims to further advance the understanding of the dynamic interactions between various

components of peace and sustainability. How are peace and sustainability linked to each other, and what are the key parameters that define the nexus between them? This book addresses those questions through a combination of theoretical studies and empirical research that contextualize peace and sustainability issues amid global transformations. The conceptual and empirical linkages between peace and sustainability are widely recognized in academic and policy circles. The adoption of the 2030 Agenda for Sustainable Development confirms this recognition. However, many of the initiatives on peace and sustainability operate in silos, undermining the positive and mutually reinforcing relationship between them. Enhanced integration of peace and sustainability components is imperative for addressing complex challenges that come with global transformations that are manifested environmentally, socially, politically, and economically across levels. It is, therefore, crucial to identify the pathways that enhance the peace-promoting potential of sustainability and the sustainability-promoting potential of peace. The contributions in this edited book elaborate on such pathways by offering insights related to different social, economic, and environmental aspects of the peace-sustainability nexus. Given its inter- and trans-disciplinary focus, the book is of interest to policymakers and researchers working in different areas of peace and sustainability. It contributes to ongoing academic and policy discussions surrounding the outcomes of and challenges to achieving the Sustainable Development Goals (SDGs), particularly SDG 16 on peace, justice and strong institutions. .
