

1. Record Nr.	UNINA9910799246203321
Autore	Li Jian
Titolo	Atlas of Thoracoscopic Lobectomy with Bronchoplasty [[electronic resource] /] / by Jian Li, Zhiqiang Long
Pubbl/distr/stampa	Singapore : , : Springer Nature Singapore : , : Imprint : Springer, , 2023
ISBN	981-9951-50-X
Edizione	[1st ed. 2023.]
Descrizione fisica	1 online resource (79 pages)
Altri autori (Persone)	LongZhiqiang
Disciplina	617.540597
Soggetti	Endoscopic surgery Respiratory organs - Diseases Surgery Minimally Invasive Surgery Pneumology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	The principles of incision selection -- Right upper lobectomy -- Resection of the middle lobe of the right lung -- Right inferior lobe resection -- Upper left lobectomy -- Back segment resection of left lower lobe -- Left pneumonectomy -- Sleeve resection of right upper lobe of lung -- Sleeve resection of left lower lobe of lung -- Double sleeve resection of right upper lobe of lung -- Lower left lobectomy -- Right upper lobectomy with 2cm incision.
Sommario/riassunto	This book shows techniques and methods of the lymphadenectomy and the angioplasty under thoracoscope. It also presents the latest 2 cm uniportal lobectomy, which represents the highest level of thoracoscopic lung surgery technique. Compared to traditional thoracoscopic surgery, the survival and quality of postoperative life of patients undergoing lung cancer surgery have been greatly improved. This book provides a brand-new vision for thoracic surgeons to understand and learn the latest and most advanced development status and direction of modern minimally invasive techniques in thoracic surgery. The video screenshots fully reflect the real process of the operation and unique surgical methods. Thoracic surgeons will benefit from this book and improve the level of minimally invasive techniques

in thoracic surgery.
