	Nota di contenuto	XP 2022 -- Connecting Agile with Theory of Change -- Enhancing Agile Software Development Sustainability through the Integration of User Experience and Gamification -- Sustainable IT in an agile DevOps setup leads to a shift left in sustainability engineering -- Improving the implementation of microservice-based systems with static code analysis -- Towards an Architecture-centric Methodology for Migrating to Microservices -- Being agile in a data science project -- The Future of Work: Agile in a Hybrid World -- XP 2023 -- Organizational Debt in Large-Scale Hybrid Agile Software Development: A Case Study on Coordination Mechanisms -- The Know-How of Agile Retrospectives in Software Startups -- Analytics Practices in Practice: How Software Startup Companies Are Applying Analytics? -- Towards a X-as-a-Service application in industrial laundry – A Case Study of information requirement engineering in Data Ecosystems -- Software StartupEcosystem in Namibia Industry Expectations for Product Ops

Professionals: A Review of Job Advertisements -- Unveiling the Spectrum of Hybrid Work in Software Engineering: Research DIrections -- Defining a Remote Work Policy: Aligning Actions and Intentions -- Integrating Business Development in Large-Scale Agile Software Development: Barriers and Enablers -- ChatGPT as a tool for User Story Quality Evaluation: Trustworthy Out of the Box? -- Survey of AI tool usage in programming course: Early observations Turning Large Language Models into AI Assistants for Startups using Prompt Patterns -- ChatGPT as a fullstack web developer - early results -- Reviewing Crypto-agility and Quantum Resistance in the light of agile practices -- Empirical Investigation of Quantum Computing on Solving Complex Problems.

Sommario/riassunto	This open access book constitutes papers from the research workshops presented at XP 2022 and XP 2023, respectively the 23rd and 24th International Conferences on Agile Software Development, held on June 13-17, 2022 at the IT University of Copenhagen, Denmark and June 13-16, 2023 in Amsterdam, Netherlands. XP is the premier agile software development conference combining research and practice. It is a unique forum where agile researchers, practitioners, thought leaders, coaches, and trainers get together to present and discuss their most recent innovations, research results, experiences, concerns, challenges, and trends. XP conferences provide an informal environment to learn and trigger discussions and welcome both people new to agile and seasoned agile practitioners. In 2022, the following workshops took place: 3rd International Workshop on Agility with Microservices Programming 2nd International Workshop on Agile Sustainability Agile and Education In 2023, six workshops were held: Workshop on Organisational Debt and Large-Scale Agile Workshop on Software-Intensive Business Workshop on Global and Hybrid Work Workshop on Fear-Based Agile Transformation Workshop on AI-assisted Agile Workshop on Agile-Quantum Software Engineering In 2022, 6 workshop papers were accepted for publication in these post-proceedings, out of 11 submissions, and in 2023, 15 papers were accepted for publication out of 38 submissions.
