Sommario/riassunto

This textbook addresses key issues and challenges in contemporary multicultural and multilingual workplaces through the lens of leadership, communication and trust. It draws together contributions from fields including cultural studies, psychology, sociolinguistics, translation and interpreting studies, and business management, making a valuable contribution to the area of language and culture in the workplace. The volume is divided into 5 thematic sections: Intercultural Communication; Cross-cultural Leadership; Economy; Language; and Diversity. It offers a critical analysis on themes that tend to be overlooked in intercultural business and management scholarship, such as multilingualism in the workplace, translation and interpreting in cross-cultural work practices, dignity in the workplace, performing gender in the workplace, and D/deaf people in the workplace. It also revisits themes such as cross-cultural leadership, interculturality and the embedded economy, and managing uncertainty in the context of the contemporary globalized workplace. It then brings everything together in a Cross-Cultural Scenarios chapter at the end, with recommendations for every scenario. Overall, the textbook constitutes an essential resource for honours undergraduate and postgraduate students in these and related fields, as well as academics and practitioners with an interest in globalised workplaces. .
