Sommario/riassunto

Improve quality of life for patients with HIV/AIDS! Practice Issues in HIV/AIDS Services: Empowerment-Based Models and Program Applications provides a sound framework of intervention practices for case managers and care coordinators to help HIV/AIDS patients live longer and healthier lives. This book focuses on client-based care that addresses the social and psychological needs of the patient as well as his or her physical and medical requirements. Filled with concrete information and recommendations from practitioners and researchers, this instructive text will help increase the effe
