Sommario/riassunto

Using a unique "old-new" treatment, this book presents new perspectives on several important topics in Southeast Asian history and historiography. Based on original, primary research, it reinterprets and revises several long-held conventional views in the field, covering the period from the "classical" age to the twentieth century. Chapters share the approach to Southeast Asian history and historiography: namely, giving "agency" to Southeast Asia in all research, analysis, writing, and interpretation. The book honours John K. Whitmore, a senior historian in the field of Southeast Asia
