Sommario/riassunto	As government management in Israel is gradually replaced by private sector management, it is becoming apparent that the collective-oriented mission of government cannot be fulfilled by the private sector or by the non-profit organizations of civil society. This book provides an analysis of the machinery of government in Israel, highlighting the inadequacy of the private sector as an alternative and how public management will need to cope with the new challenges and pressures of the 21st century. Providing hitherto unpublished data and analysis in
