

1. Record Nr.	UNINA9910800053003321
Titolo	Designing Performance Assessment Systems for Urban Teacher Preparation
Pubbl/distr/stampa	New York, : Routledge, April 2005 Florence, : Taylor & Francis Group [distributor]
ISBN	1-135-61364-8 1-282-32668-6 9786612326684 1-4106-1299-6
Descrizione fisica	1 online resource (202 p.)
Disciplina	370/.71/1
Soggetti	Teachers - Training of - United States Teachers - Rating of - United States Competency-based education - United States Education, Urban - United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	Contents; Preface; About the Contributors; PART I: THEORETICAL FRAMEWORK; PART II: CASE STUDIES; PART III: THEORY INTO SITUATED PRACTICE; Author Index; Subject Index
Sommario/riassunto	Annotation

2. Record Nr.	UNINA9910965665903321
Titolo	Ginzburg-Landau vortices / / Haim Brezis, Tatsien Li
Pubbl/distr/stampa	Beijing, China, : Higher Education Press Singapore, : World Scientific Publishing, Co., c2005
ISBN	9786611896942 9781281896940 1281896942 9789812701183 9812701184
Edizione	[1st ed.]
Descrizione fisica	1 online resource (196 p.)
Collana	Series in contemporary applied mathematics ; ; 5
Altri autori (Persone)	BrezisH (Haim) LiDaqian
Disciplina	532.0595
Soggetti	Singularities (Mathematics) Mathematical physics Superconductors - Mathematics Superfluidity - Mathematics Differential equations, Nonlinear - Numerical solutions
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"The "Ginzburg-Landau Vortices" School and Symposium ... was held during November 18-19, 2002 in Fudan University, Shanghai, China"-- P. v.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Preface; Contents; Bifurcation Problems for Ginzburg-Landau Equations and Applications to Bose-Einstein Condensates; Vortex Analysis of the Ginzburg-Landau Model of Superconductivity; On Singular Perturbation Problems Involving a "Circular-Well" Potential; Existence Results on Ginzburg-Landau Equations; A Survey on Ginzburg-Landau Vortices of Superconducting Thin Films*; On the Hydro-dynamic Limit of Ginzburg-Landau Wave Vortices; Singular Sets of the Landau-Lifshitz System*; Analysis of Ginzburg-Landau Models for Type I Superconductivity*; Ferromagnets and Landau-Lifshitz Equation
Sommario/riassunto	The Ginzburg-Landau equation as a mathematical model of superconductors has become an extremely useful tool in many areas of

physics where vortices carrying a topological charge appear. The remarkable progress in the mathematical understanding of this equation involves a combined use of mathematical tools from many branches of mathematics. The Ginzburg-Landau model has been an amazing source of new problems and new ideas in analysis, geometry and topology. This collection will meet the urgent needs of the specialists, scholars and graduate students working in this area or related areas.
