Sommario/riassunto	This important new study examines in detail a semantic-pragmatic pattern surrounding the basic verb 'acquire' in nearly 30 Southeast Asian languages, concentrating on Lao, Vietnamese, Khmer, Kmhmu, Hmong, and varieties of Chinese. The book makes a significant contribution to empirical work on semantic and grammatical change in a linguistic area, as well as representing theoretical advances in cognitive semantics. Gricean pragmatics, semantic change, grammaticalization, language contact, and areal linguistics. The book also examines how changes in the speech of individuals actually become ch
