

1. Record Nr.	UNINA9910800121703321
Autore	Pan Chunyang
Titolo	Urban Infrastructure and Economic Development in China / / Chunyang Pan and Xie'an Huang
Pubbl/distr/stampa	Shanghai, China : , : Springer, , [2024] ©2024
ISBN	981-9966-29-9
Edizione	[First edition.]
Descrizione fisica	1 online resource (174 pages)
Collana	Public Economy and Urban Governance in China Series
Disciplina	307.12160951
Soggetti	City planning - Economic aspects - China Economic development - China
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Intro -- Foreword -- Where Is Development Economics Heading? -- About "Development Economics" -- About This Book -- Reference -- Foreword by Baijun Wu -- Series Editor's Preface -- Acknowledgements -- Contents -- 1 Introduction -- 1.1 Motivation and Significance of Research -- 1.1.1 Role of Infrastructure Development in China's Phenomenal Growth -- 1.1.2 The Middle Income Trap After a Growth Miracle -- 1.1.3 Significance of Research -- 1.2 Framework and Method of Research -- 1.2.1 Framework of Research -- 1.2.2 Research Method -- 1.3 Research Content and Key Tasks -- 1.3.1 Research Content -- 1.3.2 Key Tasks of Research -- References -- 2 A Brief History and Basic Concepts of Infrastructure -- 2.1 A Brief History of Infrastructure -- 2.1.1 Infrastructure During the First Industrial Revolution -- 2.1.2 Infrastructure Development Since World War II -- 2.1.3 Historical Significance of Infrastructure Development -- 2.2 Concept, Types, and Nature of Infrastructure -- 2.2.1 Concept and Types of Infrastructure -- 2.2.2 Economic Attributes of Infrastructure -- 2.3 Misunderstandings Concerning Government Provision of Infrastructure -- 2.3.1 Misunderstanding 1: Government Provision = Free Provision -- 2.3.2 Misunderstanding 2: Government Provision = Government Production -- 2.3.3 Misunderstanding 3: Government Provision = Sole Source -- 2.3.4 Misunderstanding 4: Government Provision = Universal Satisfaction -- 2.3.5

Misunderstanding 5: Government Provision = Willingness to Provide --
 2.4 Innovations in Infrastructure Provision Models -- References -- 3
 Origin and Development of Infrastructure Economics -- 3.1 Previous
 Studies on Infrastructure Economics -- 3.1.1 Adam Smith's Theory
 of State Functions -- 3.1.2 Friedrich List's "Standard Model" -- 3.1.3
 Karl H. Marx's "General Conditions of Production" -- 3.1.4 John Keynes'
 "Aggregate Demand Management".
 3.1.5 Development Economics Concerning Infrastructure -- 3.1.6 The
 Public Goods Theory -- 3.1.7 Robert W. Fogel's "Counterfactual
 Analysis" -- 3.2 Economic Development Effects of Infrastructure
 in Developing Countries -- 3.2.1 Empirical Evidence from Asian,
 African, and Latin American Countries -- 3.2.2 Cross-Country
 Empirical Evidence -- 3.3 Effects of Infrastructure on China's Economic
 Development -- 3.3.1 Economic Growth Effects of Infrastructure --
 3.3.2 Internal Mechanisms of the Economic Growth Effects
 of Infrastructure -- 3.3.3 Effects of Infrastructure on Poverty Reduction
 and Income Distribution -- 3.4 Reflections on the Economic Growth
 Effects of China's Infrastructure -- References -- 4 A Review
 on Economic Models of Infrastructure -- 4.1 Iceberg Cost Model -- 4.2
 Endogenous Growth Model -- 4.2.1 Assumptions -- 4.2.2 Model Setup
 and Solution -- 4.3 Regional Competition Model -- 4.3.1 Assumptions
 -- 4.3.2 Model Setup and Solution -- References -- 5 Achievements
 and Challenges of Infrastructure Development in China Over the Past
 70 Years -- 5.1 China's Infrastructure Development During Socialist
 Economic Reconstruction (1949-1978) -- 5.1.1 Reparation
 and Construction of Infrastructure During Economic Recovery (1949-
 1952) -- 5.1.2 Development of Infrastructure During Transition
 to Socialism (1953-1956) -- 5.1.3 Development of Infrastructure While
 Exploring the Path of Socialism (1957-1978) -- 5.2 Leapfrog
 Infrastructure Development During Reform and Opening-Up (1978-
 2019) -- 5.2.1 Infrastructure Development in the Early Years of Reform
 and Opening-Up (1978-1984) -- 5.2.2 Infrastructure Development
 While China Explored Socialist Market Economy (1985-1993) -- 5.2.3
 Infrastructure Development During Market-Oriented Reform in Full
 Swing (1994-2012) -- 5.2.4 Infrastructure Development in the New
 Normal Stage of Economic Development (2013-2019).
 References -- 6 Infrastructure and Market Integration: From
 the Perspective of Inter-connectivity by High-Speed Rails -- 6.1
 Motivation -- 6.1.1 Market Fragmentation Undermining the Economy
 -- 6.1.2 Contributions of Railways to Market Integration -- 6.1.3
 China's Development of High-Speed Rails -- 6.1.4 Research Questions
 -- 6.2 Empirical Research Methodology -- 6.2.1 Theoretical Analysis
 and Model Setting -- 6.2.2 Variable Construction and Data Sources --
 6.3 Analysis of Estimation Results -- 6.3.1 Estimation of the Impact
 of HSR Connectivity on the Wage Gap Between Paired Cities -- 6.3.2
 Geographical Distance and HSR Connectivity -- 6.4 Key Findings
 and Policy Implications -- References -- 7 Infrastructure Development
 on Open Development: From the Perspective of Foreign Direct
 Investment -- 7.1 Motivation -- 7.1.1 Economic Transformation
 and the Exit of Foreign Capital -- 7.1.2 Research Questions -- 7.2
 Empirical Research Methodology -- 7.2.1 Theoretical Analysis
 and Model Setting -- 7.2.2 Variable Construction and Data Sources --
 7.3 Analysis of Estimation Results -- 7.3.1 Impacts of Infrastructure
 on FDI Inflows: Evidence at the Provincial Level -- 7.3.2 Impacts
 of Infrastructure on FDI Inflows: Evidence at the City Level -- 7.4 Key
 Findings and Policy Implications -- References -- 8 Infrastructure's
 Influence on People's Well-Being: Taking Access to Natural Gas
 as an Example -- 8.1 Motivation -- 8.1.1 Clean Fuel and People's Well-

Being -- 8.1.2 Research Questions -- 8.2 History of Natural Gas in China -- 8.3 Empirical Research Methodology -- 8.3.1 Equations to Estimate People's Level of Happiness -- 8.3.2 Theoretical Analysis and Model Setting -- 8.4 Analysis of Estimation Results -- 8.4.1 Effect of Natural Gas Penetration on Happiness -- 8.4.2 Average Marginal Willingness to Pay. 8.4.3 Interaction Between Industrial Emissions and Natural Gas Penetration -- 8.5 Key Findings and Policy Implications -- References -- 9 Infrastructure and Economic Growth: From the Perspective of New Infrastructure -- 9.1 Motivation -- 9.1.1 Challenges Facing the Chinese Economy -- 9.1.2 Challenges Facing Development of New Infrastructure -- 9.1.3 Research Questions -- 9.2 Definition of New Infrastructure and Literature Review -- 9.2.1 Definition of New Infrastructure -- 9.2.2 Economic Attributes of New Infrastructure -- 9.3 Construction of NIDPs -- 9.4 Empirical Research Methodology -- 9.4.1 Theoretical Analysis and Model Setting -- 9.4.2 Variable Construction and Data Sources -- 9.5 Analysis of Estimation Results -- 9.5.1 Estimation Results of the Impact of New Infrastructure on Regional Economic Growth -- 9.5.2 Accounting of Regional Economic Growth -- 9.6 Key Findings and Policy Implications -- References -- 10 Impacts of Governance on Infrastructure Provision and Institutional Innovations -- 10.1 Introduction -- 10.2 Governance and Corruption in the Infrastructure Sector -- 10.2.1 Basic Concepts and Significance of Governance -- 10.2.2 Historical Lessons: Corruption in the US Infrastructure Sector -- 10.2.3 Corrupted Infrastructure Sector in Developing Countries -- 10.3 Governance and Private Participation in Infrastructure Provision -- 10.3.1 Hypotheses -- 10.3.2 Empirical Research Methodology -- 10.3.3 Analysis of Estimation Results -- 10.4 State Governance, Decentralization, and Infrastructure Provision -- 10.4.1 State Governance and the Two "Centenary Goals" -- 10.4.2 Chinese Decentralization as a Form of State Governance -- 10.4.3 Impact of Chinese-Style Decentralization on Infrastructure Provision -- 10.5 Impact of Improved Governance on Infrastructure Provision -- References.
