Lingua di pubblicazione	Tedesco
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	The NaMaRes project developed tools and recommendations to support sustainable and resource-efficient urban planning at the neighborhood level. The considered resources include water, materials, land, and ecosystem services. The project's results enhance the information available on resources in existing neighborhoods and provide a foundation for stakeholders in political discussions and urban implementation planning. The project contributes to the implementation of the SDGs in cities.
