in the garden, garden in the city : Clarence Stein, Moshe Safdie and the design of urban reform / Martin H. Shukert.

Sommario/riassunto

"Jews and Urban Life recognizes that throughout their long history, Jews have often inhabited cities. The reality of this urban experience ranged from ghetto restrictions to robust participation in a range of civic and social activities. Essays in this collection present relevant examples from within the Jewish community itself, moving historically from the biblical period to the modern-day State of Israel. Taking a comparative approach while recognizing the particulars of individual instances, authors examine these phenomena from a wide variety of approaches, genres, and media. Interdisciplinary and accessibly written, the articles display a multitude of instances throughout history showing the range of Jewish life in urban settings"--
