Sommario/riassunto	Maritime Piracy is now a pressing global issue, and this work seeks to provide a concise and informative introduction to the area. Never truly having receded into a romanticized past, seaborne banditry's rapid growth was stimulated by low risks and increasingly high rewards. Currently, obsolete, incomplete and complicating structures and norms of governance, together with advances in technology, enable a lucrative business model for pirates, as they effectively operate with impunity and claim increasing ransoms. ?Beginning with an overview and historical development of
