

1. Record Nr.	UNINA9910806141103321
Autore	Frehner Brian
Titolo	Finding oil : the nature of petroleum geology, 1859-1920 // Brian Frehner
Pubbl/distr/stampa	Lincoln, : University of Nebraska Press, c2011
ISBN	1-280-49828-5 9786613593511 0-8032-3837-1
Edizione	[1st ed.]
Descrizione fisica	1 online resource (249 p.)
Disciplina	333.8/232097309034
Soggetti	Petroleum industry and trade - United States - History - 19th century Petroleum industry and trade - United States - History - 20th century
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Vernacular authority in the oil field -- Collaborative authority : nineteenth-century foundations of petroleum geology -- Contested knowledge -- Shared authority : practical oil men and professional geologists -- Institutional authority : field work, universities, and surveys -- Appropriated knowledge -- Geology organized : Hhenry I. Doherty's technological system.
Sommario/riassunto	Oil has made fortunes, caused wars, and shaped nations. Accordingly, no one questions the idea that the quest for oil is a quest for power. The question we should ask, Finding Oil suggests, is what kind of power prospectors have wanted. This book revises oil's early history by exploring the incredibly varied stories of the men who pitted themselves against nature to unleash the power of oil. Brian Frehner shows how, despite the towering presence of a figure like John D. Rockefeller as a quintessential "oil man," prospectors were a diverse lot who saw themselves, their
