Sommario/riassunto

Learn to apply the strategies of top hedge fund managers to your personal investment portfolio The most successful hedge fund managers and superstar investors outperform the markets impressively, while most fund managers-and individual investors as well-usually underperform the market averages. Based on the figures released by the Edgar System each quarter, this book analyzes the performance of hedge fund managers controlling at least 100 million in Assets Under Management to help other investors close the gap between themselves and the industry's top fund managers.
